codeminds.

Logo, colour & asset sizes.

The logo system for the Voltage identity — now with Midnight navy as the dark brand colour: the square mark, the wordmark, the colours they may appear in, and every size the studio needs — web, app icons, social, email and documents.

STATUS

Draft — logo choice pending. Mark A and wordmark W2 are recommended. Colour updated: **Midnight navy #0F1B2D** replaces black (Oct 2026).

HOW THESE WERE MADE

Hand-authored SVG (the Recraft design tool wasn't connected), lettering outlined from the site's own fonts. Regenerate with `scripts/brand/`.

Square mark — candidates

Used for the favicon, app icons and social avatars. Shown at real sizes and in a browser tab.

ON PAPER

A · Chip “c.”

RECOMMENDED

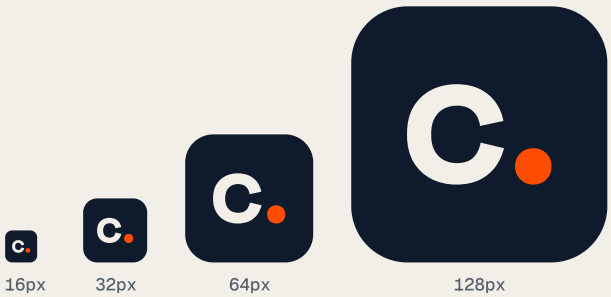

Navy “c.” on an orange tile

Codeminds Digital

B · Navy “c.”

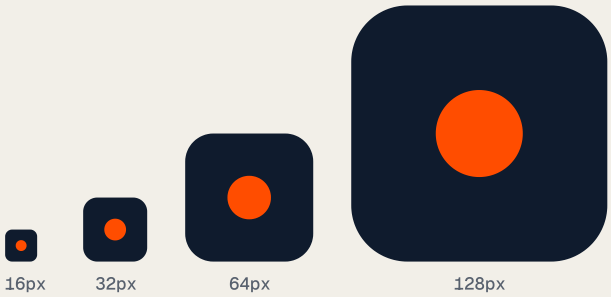

Paper “c” + orange period on a navy tile

Codeminds Digital

C · Dot

Orange dot on a navy tile

Codeminds Digital

Recommendation: A · Chip “c.” — it reuses the site’s orange highlight chip and the footer’s “codeminds.” period, stays legible at 16px, and holds its shape on paper and on navy.

Square mark — on navy

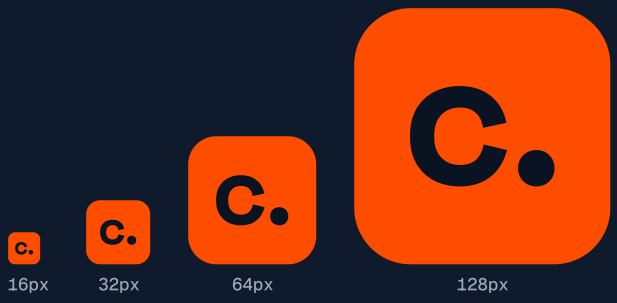

The same marks on Midnight navy #0F1B2D (dark UIs, social themes).

ON NAVY

A · Chip “c.”

RECOMMENDED

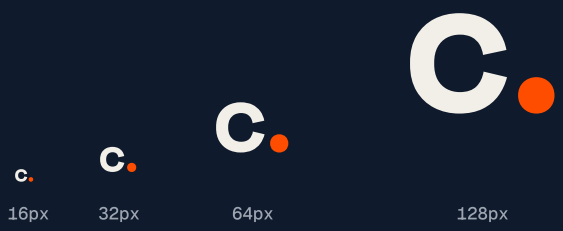

Navy “c.” on an orange tile

Codeminds Digital

B · Navy “c.”

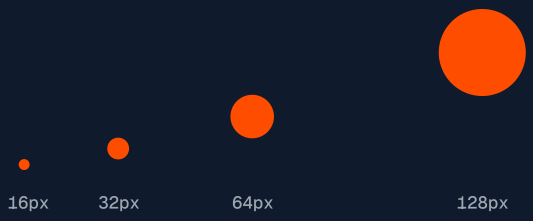

Paper “c” + orange period on a navy tile

Codeminds Digital

C · Dot

Orange dot on a navy tile

> **Recommendation: W2 · “codeminds.”** as the primary logo, so wordmark and “c.” mark share one motif. W3 is the formal version for documents — only at 48px / 15mm tall or more.

Only when orange must be text (links)

APPROVED COMBINATIONS

COMBINATION	SAMPLE	CONTRAST	USE
Navy-black logo on Paper		16.2 : 1	Allowed
Paper logo on Midnight navy		15.1 : 1	Allowed
Navy-black logo on Orange		5.6 : 1	Allowed
Orange dot on Midnight navy		5.2 : 1	Allowed
Orange logo on Paper		2.9 : 1	Never

RULES

- **Orange is never the wordmark colour on light backgrounds** (2.9 : 1). Orange is for the period/dot and fills only.
- The dark brand colour is **Midnight navy #0F1B2D** (not black). Text and the wordmark on light use navy-black #091321.
- On an orange background the whole logo is navy-black — one colour, including the period.
- One-colour versions (all navy / all white) for print, embossing and single-colour merch.
- No gradients, shadows, outlines, rotation, stretching or other colours. Always use the supplied files.
- App-icon tile: corner radius 22% of the tile width; the “c.” spans ~60% of the tile.

Clear space, minimum size, type

CLEAR SPACE

Keep at least **one “c” height** (the x-height) clear on every side.

MINIMUM SIZES

ASSET	SCREEN	PRINT
Wordmark W2	80px wide	20mm wide
Formal lockup W3	48px tall	15mm tall
Mark A	16px	6mm
Header wordmark	20–24px tall	—

Below these sizes switch to the mark.

TYPOGRAPHY AROUND THE LOGO

TYPEFACE	ROLE	SETTING
Space Grotesk Bold	Wordmark, headings	Tracking −3% (wordmark), −2.5% to −4% (headings)
Geist	Body text, UI, email copy	Regular / Medium
Geist Mono	“DIGITAL” descriptor, labels	Medium, uppercase, tracking +12–22%

Sizes for every placement

PLACEMENT	ASSET	SIZE	FORMAT
Website			
Header	Wordmark (W2)	24px tall · min 20px	SVG
Footer	Wordmark (W2)	Fluid, up to ~220px	Live text (built)
Browser tab	Mark A	16 · 32 · 48px	favicon.ico + icon.svg
iPhone home screen	Mark A	180 × 180, no transparency	apple-touch-icon.png
Android / PWA	Mark A	192 · 512 + maskable 512 (logo in centre 80%)	PNG + manifest
Link previews (OG / X card)	Wordmark + headline	1200 × 630	PNG via /api/og (built)
Social			
LinkedIn company logo	Mark A	400 × 400	PNG
LinkedIn cover	Wordmark on paper	1128 × 191	PNG
X / Twitter avatar	Mark A	400 × 400	PNG
X header	Wordmark + tagline	1500 × 500	PNG
GitHub org avatar	Mark A	500 × 500	PNG
GitHub social preview	Wordmark + tagline	1280 × 640	PNG
Instagram profile	Mark A	1080 × 1080 (shown at 320)	PNG
Documents & email			
Email signature	Wordmark (W2)	200 × 50 (export 400 × 100 @2x)	PNG
Invoices / proposals / letterhead	Formal lockup (W3)	Min 48px / 15mm tall	SVG / PDF
Slides	Wordmark (W2) + Mark A	Wordmark 24–32pt on title slide	SVG / PNG

Asset checklist

FILE	WHAT	LOCATION	STATUS
icon.svg	Scalable favicon (Mark A)	app/	TO CREATE
favicon.ico	16 / 32 / 48 multi-size	app/	TO CREATE

logo-mono-navy.svg / -white.svg	One-colour wordmark	public/brand/	TO CREATE
logo-formal.svg	W3 lockup for documents	public/brand/	TO CREATE
mark.svg · mark-512.png	Square mark for avatars	public/brand/	TO CREATE
social/*.png	LinkedIn, X, GitHub, Instagram sizes above	public/brand/social/	TO CREATE
email-signature.png	400 × 100	public/brand/	TO CREATE
OG image	Dynamic, 1200 × 630 (navy)	/api/og	DONE
stack-icons.svg	Technology marks for the “Built with” strip	public/brand/	DONE
/icons/logo.svg (old favicon)	120 × 40 wordmark used as favicon — unreadable in tabs	public/icons/	REPLACE

> **Fix first:** the current favicon `/icons/logo.svg` is a 120 × 40 wordmark, unreadable in browser tabs. It is replaced by the square-mark icon set above.

Icons are wired through Next.js file conventions (`app/icon.svg`, `app/favicon.ico`, `app/apple-icon.png`, `app/manifest.ts`). Brand files for the team live in `public/brand/`.
